

MANISH SINGH

Full Stack Blockchain Developer

Noida, Uttar Pradesh, India | +91 89549 87907 | +91 72174 76579 | msd161918@gmail.com | [linkedin.com/in/manishhsingh](https://www.linkedin.com/in/manishhsingh)

PROFESSIONAL SUMMARY

Full Stack Blockchain Developer with 2 years 6 months of hands-on experience as of July 2026 in smart contract development, dApp integration, and full-stack web development, calculated from March 2024 to present based on the professional experience timeline. Skilled in Solidity, Ethereum, BSC, Avalanche, React.js, Next.js, TypeScript, Node.js, Express.js, MongoDB, Ethers.js, Web3.js, MetaMask, WalletConnect, Hardhat, and Foundry. Experienced in RWA projects, ERC-3643/ERC-1404 standards, bridge contracts, wallet authentication, and responsive Web3 interfaces. Certified in Blockchain from IIT Kanpur and currently pursuing MCA with Blockchain specialization.

CORE SKILLS

Blockchain: Solidity, Smart Contracts, Ethereum, Avalanche, Binance Smart Chain, Polygon, EVM-compatible chains, ERC-3643, ERC-1404, RWA tokenization, cross-chain bridge contracts

Web3 Integration: Ethers.js, Web3.js, MetaMask, WalletConnect, Reown AppKit, dApp integration, wallet authentication

Frontend: React.js, Next.js, Vite, TypeScript, JavaScript, Tailwind CSS, HTML5, CSS3, Three.js, responsive UI development

Backend & Database: Node.js, Express.js, REST APIs, MongoDB

Testing & Tools: Hardhat, Foundry, Truffle, Ganache, Git, Canva

PROFESSIONAL EXPERIENCE

Full Stack Blockchain Developer | GFutureTech PVT. LTD | Ahmedabad, Gujarat

November 2025 - Present

- Working on an RWA-focused blockchain project using ERC-3643 and ERC-1404 standards for regulated token workflows.
- Developing and deploying Solidity smart contracts across Ethereum, Avalanche, and other EVM-compatible chains.
- Integrating blockchain modules with enterprise systems and decentralized application interfaces.
- Testing smart contract functionality using Hardhat and Foundry to improve reliability before deployment.
- Building user interfaces for secure interaction with decentralized applications and blockchain transactions.

Full Stack Blockchain Developer | Self-Employed / Freelancer | Remote

April 2025 - Present

Project: IINGO | iingo.network

- Developed and deployed a Web3 platform using React.js, TypeScript, Web3.js, Solidity, Tailwind CSS, Ethers.js, WalletConnect, and Reown AppKit.
- Designed smart contracts supporting on-chain community features and token interaction workflows.
- Integrated wallet connectivity and blockchain interactions using Ethers.js and Web3.js.
- Created responsive Web3 frontend experiences with seamless MetaMask and WalletConnect authentication.

Full Stack Blockchain Developer | NUFU Emerging Technologies FZCO | Dubai, UAE

March 2025 - October 2025

- Created and deployed smart contracts across Ethereum, Polygon, and other EVM-compatible blockchain networks.
- Built a bridge contract to support wallet-level cross-chain swap functionality.
- Integrated blockchain solutions with existing enterprise software systems and dApp frontends.
- Tested smart contract functionality using Truffle and Ganache.
- Built responsive frontend modules using React.js, Next.js, TypeScript, and Tailwind CSS.

Full Stack Blockchain Developer | Stack Meridian | Nagpur, Maharashtra

March 2024 - February 2025

- Developed and deployed smart contracts and integrated them with frontend applications.
- Worked across Ethereum, Binance Smart Chain, and other EVM-compatible blockchain networks.
- Built frontend applications using Vite, React.js, TypeScript, Next.js, Tailwind CSS, and Three.js.
- Developed backend services with Node.js and Express.js, including REST APIs for blockchain and frontend workflows.
- Used MongoDB for database management and Ethers.js/Web3.js for dApp connectivity and wallet authentication.

PROFESSIONAL EXPERIENCE CONTINUED

DM Trainee | Magic EdTech | Noida, Uttar Pradesh
October 2022 - March 2023

- Developed and designed responsive eBook layouts using HTML and CSS for multi-device compatibility.
- Conducted quality assurance checks and collaborated with cross-functional teams to meet delivery timelines.

EDUCATION

MCA, Specialization in Blockchain | Amity University, Noida, Uttar Pradesh | 2024 - 2026

- Pursuing advanced knowledge in software development, database management, blockchain technology, and Web3 applications.
- Strengthening full-stack development skills with React.js, Next.js, Node.js, MongoDB, system design, and scalable application development.

Bachelor in Computer Applications | Surajmal Agarwal Degree College | 2019 - 2022 | Percentage: 73.80%

Intermediate, CBSE Board | Country Wide Public School | 2018 - 2019 | Percentage: 61.2%

CERTIFICATION

Professional Certificate Program in Blockchain | IIT Kanpur

- Blockchain Fundamentals
- Blockchain Applications and Architecture
- Capstone Project - Professional Certificate Program in Blockchain
- Academic Masterclass - Professional Certificate Program in Blockchain, IIT Kanpur
